

A DECE OASIS

A20F XE

Fat Tyre E-Bike

ADO's totally unique 4.0 fat tyre eBike is the latest, new and improved version of the A20 range, equipped with rear racks and fenders that provide a convenient, safe and almost effortless way to travel.

The ADO A20F+ XE has a powerful 250-watt rear hub motor with an impressive maximum speed and range. It's novel design and fat wheels provide a smooth and comfortable ride, allowing you to cross any terrain with ease, whether on tar, beaches, golf courses and more. The most striking feature of the A20F+ XE is that it effortlessly folds up for easy carrying and public transit rides as well as making it a breeze to transport in the boot of a car or store at home.
