

A DECE OASIS

DECE 300C Hybrid Commuter E-Bike

The ADO D300C eBike takes the pain out of cycling, but doesn't do all the hard work for you, striking a balance between leisure and exercise.

The 300C is the more affordable version of the 27,5' range but offers an exceptional ride and unmatched value for money for a 250W-powered eBike.

The 250-watt rear hub motor 43N.M high torque, providing a maximum speed of 25km per hour, making it a great ride whether beating a path through the bush or pumping it across town.

Be it cost-cutting or time saving, the D300C takes the cake.
